NOTE: The PBSS SPYLUNK has been temporarily stopped until there is some activity and trip reports as well as finding a new editor. Any one wanting to edit the SPYLUNK should contact Bill Bentley @ 697-3079. When we find a new editor the SPYLUNK will then be published on a bi-monthly basis. Until then I will act as editor and I hope to have an issue out in March before the meeting.

Tony Grieco has given up his job as editor of the SPYLUNK after a little over 3 years of doing a great job. His current employment status has limited his time and resources. Lets all hope that he can seek new employment and stay in the Permian Basin. Tony will be missed, but don't worry we have a years worth of cartoons to remember him by.
