APRIL 16, 1987

Department of Public Safety Assembly Room
(Location below)
Plan to attend!

Topics of discussion:

- Hell's Below trip -
- Bat Cave Blow out -

MONTHLY MEETING LOCATION CHANGE

Due to scheduling problems with our former meeting place my supervisor, Major Thomas with the Texas Department of Public Safety, has given us permission to use the DPS assembly room to conduct our monthly meeting. The room is large and well suited for our purposes.

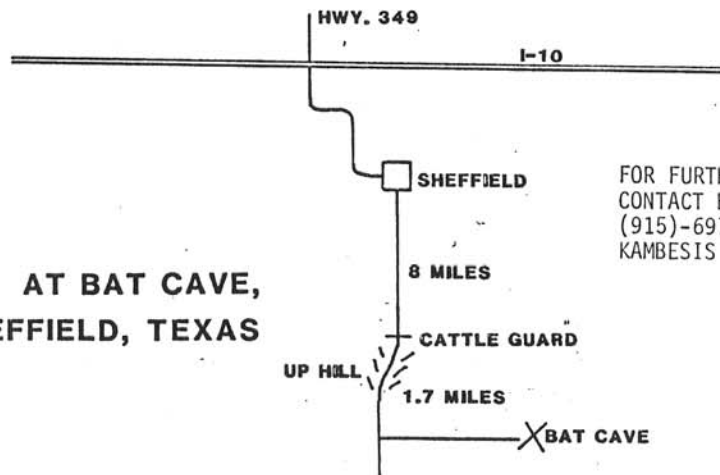

The DPS office is located on West Loop 250 just north of I-20 where you get your drivers license. Personnel need to go to the back (east side) of the building and park anywhere in one of the marked spaces. Under the lighted canopy, there is a gas pump and a glass door. Go to the glass door and, if I'm not there to let you in, tell the radio operator over the intercom (next to the door) that you are here for the meeting. When you hear the buzzer, open the door, and take the first hallway to your left.

The Permian Basin Speleological Society

PRESENTS
