W A N T E D

Suitable site in the Midland or Odessa area to train those of us who lack vertical experience, or those who desire a refresher course. The structure should be better than 30' high to simulate, as close as possible, that of a vertical drop and ascent from a cave. If you know of such a place, please attempt to gain permission from the owner and contact Pat Kambesis at 697-3807 with the details. A liability release can be drawn up if necessary.

Hope to see all of you at the next meeting. As before, it will be held at the Midland D.P.S. office. Be sure to use the buildings east side entrance. Don't forget those pictures and slides you've been bragging about. Till then ... all the best in caving.
